

Resignation Letter

of Sugeeth Jayaraj from the Board of Directors

Esteemed directors,

I hope this letter finds you well. As per the previously discussed plan, I wish to resign from the Board of Directors, and invariably, from my position of CIC of Project Troopers.

However, until the board holds a general election to find another director to fill my vacant seat and holds an internal election to determine the CIC of Project Troopers, I will remain as a caretaker director. The elections will/must be held immediately within 3 days. My caretaker period will end by 28th April, 2024. Within that period, I will also appoint additional admins to maintain the project, to constitute the election committee that will conduct future elections to the board after the start of the tenure of the 2nd CIC of Project Troopers.

Due to technical restraints (as I hold ownership of the account that owns the Jugzards Drive, GitHub and the GitBook repositories), I will still remain as an administrator of Project Troopers, whose sole function will be to perform ownership operations upon orders from the board.

In this letter, I also emphasise the importance of maintaining the integrity of this non-profit project. I trust the board of directors to take the right decisions. I also request the board to complete the formulation of the rules of the Board that will continue it's day to day decisions.

I will continue to be a member of Project Troopers.
Thank you so much for your cooperation, esteemed
directors. It was a pleasure working with all of you.

Yours sincerely,
Sugeeth Jayaraj S. A.
